

Record notes and drawings from any whiteboard!

Taking notes just got easier. With the eBeam system, you can turn any standard whiteboard into a digital workspace. The eBeam system's idea capturing technology lets you capture your whiteboard notes and drawings onto your computer so you can save, edit, print or share them over the Internet in real-time. Whether used for training, teaching, brainstorming or collaborating, the eBeam system is the perfect whiteboard companion for more effective meetings and increased teamwork.

www.e-beam.com

eBeam Mouse™

can turn your whiteboard into a live computer application area, using the eBeam pen as a mouse.

Collaborate and Host

whiteboard sessions with remote users, brainstorm interactively over the local intranet or Internet and share your ideas in real-time.

Playback Feature

allows you to "rewind" and replay all drawings on the board including erased items.

Copy and Paste

written notes into most popular office applications.

NetMeeting™ compatible — direct input into Microsoft's® NetMeeting whiteboard window.

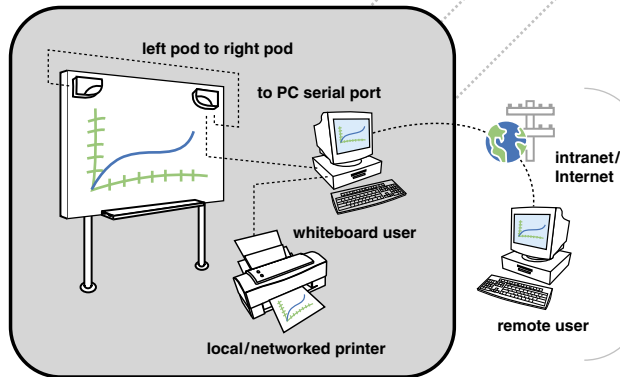

Capture

your notes in color and save or send them in many different file formats. (JPEG, GIF, TIFF, HTML, PDF, EPS, BMP, WBD)

Email, fax and print

your notes in color with the click of a mouse.

System Configuration

Here's how it works

The eBeam system is the revolutionary technology that turns any standard whiteboard into a digital workspace. Just attach the system to your whiteboard, connect it to your computer, insert standard dry erase markers into the electronic sleeves and launch the eBeam Software. You're ready to capture everything you write and draw on your whiteboard onto your PC - where you can save, print, or share them over the Internet in real-time. With the help of the eBeam Presenter plug-in (sold separately), you can now record your voice with your written notes and synchronize them for live or on-demand play.

System Performance

- Active area: 2' x 2' (0.6 m x 0.6 m) minimum, up to 8' x 5' (2.40 m x 1.50 m) maximum
- Positional resolution: 1 mm
- Positional accuracy/repeatability: +/- 1 mm
- Communications: 9600 Baud, RS-232 signal protocol.
